

## Daily Health Screening for Students and Staff (updated 8.19.20)

Families are asked to complete this checklist on a daily basis to monitor for symptoms of COVID-19. Staff will also self-monitor. Please use this list of symptoms to check for daily prior to sending them to school.

**Symptoms that would require absence or immediate parent pick-up from school for possible medical evaluation due to the high risk of association with COVID-19 may include one or more symptoms from Group A or two or more symptoms from Group B. If the student is in school the school nurse on duty will make the determination and communicate accordingly. Please contact the school nurse for any guidance needed. Students will be able to follow along on Google Classroom to maintain their academics and attendance will be flexible based on communication with the Health Office and/or the Main Office.**

<b>Group A 1 or more symptoms</b>	<b>Group B 2 or more symptoms</b>
Cough Shortness of breath Difficulty breathing New olfactory disorder New taste disorder	Fever (measured or subjective) Chills Rigors Myalgia Headache Sore throat Nausea or vomiting Diarrhea Fatigue Congestion or runny nose
